Repo: tailwindlabs/tailwindcss
PR Number: 10212
Instance ID: tailwindlabs__tailwindcss-10212
Version: 3.2
Created At: 2023-04-04
Base Commit: d731049...
Issue Numbers: ["10180"]
Pass2Pass: []
Website Links: ['http...', 'http...']
Issue_Image: [...]
Fail2Pass: ["tests/default-extractor.test.js"]

Issue Descriptions:

Div content with brackets [] prevents arbitrary class from being generated

This works: https://play.tailwindcss.com/0VLICQ8oUW

This does not work: https://play.tailwindcss.com/5KJf7xDKv6

Test Patch

tests/default-extractor.test.js

```
-    expect(extractions).toContain(`text-[#bada55]`)
- })
+
+ test('arbitrary properties followed by square bracketed stuff', () => {
+    let extractions = defaultExtractor(
+      '<div class="h-16 items-end border border-white [display:inherit]">[foo]</div>'
+    )
+
+    expect(extractions).toContain(`[display:inherit]`)
+ })
```

Patch

src/lib/defaultExtractor.js

```
  let utility = regex.any([
-    // Arbitrary properties
-    /\[[^\s:'"`]+:[^\s]+\]/,
+    // Arbitrary properties (without square brackets)
+    /\[[^\s:'"`]+:[^\s\[\]]+\]/,
+
+    // Arbitrary properties with balanced square brackets
+
+    // with square brackets to work in arbitrary properties
+    // while fixing a problem with the regex matching too much
+    /\[[^\s:'"`]+:[^\s]+?\[[^\s]+?\][^\s]+?\]/,
```
